

Tamkang University Single Sign On

Steps to change the password for the first time login

When a new faculty or student of our school uses single sign on to enter the school's information application system for the first time, the password is preset to the last 6 digits of the person's birthday; Because this default password is easy to guess, so to ensure that your account is not fraudulently used, please be sure to change this default password after login for the first time! After the first login is successful, the system will lead to the password change page, please follow the instructions on the screen to change to a more secure password, and remember this new password for subsequent password verification when you need to login the school information system.

The change steps are as follows:

1. First time login: Please use the last 6 digits of your birthday for the password, for example, birthday: 1997/02/25, password: 970225, after entering the account and password, please click "Login".

Account/Password Service Center

- Account id: Faculty, Staff, please use your employees id (6 digits); Students, Alumni, please use your student number.
- Password: **For the first time login**, please use the last 6 digits of your birthday(ex. birthday:1997/02/25, password:970225); After successfully login, the browser will lead to the change password page. Please follow the on-screen instructions(or refer to [here](#)) to change the password, and remember this new password for subsequent password verification when you need to login the school information system. If you do not change the password, the next time you login again, you will still be directed to the change password page and ask you to change the password.
- When you forget your password, please follow The steps to reset your password to obtain your temporary password, otherwise please fill out the application form 'APPLICATION FORM FOR TKU SSO PASSWORD RESET(MS Word)' directly, and follow the instructions on the form. If there are other service requests, contact the Service Center (02)2621-5656 Ext. 2468.
- After browsing, log out and close all browsers before leaving the computer, in order to avoid fraudulent use of your identity, and to ensure that personal information is not compromised, otherwise the next user may discover your personal confidential information by your identity.

2. Change the default password: After the account and password is verified, the system will lead to the change password page, please follow the instructions on the screen, enter a more secure password, and check "I am not a robot" (may be taken some pictures identification process, until "I am not a robot" is checked), then click "Submit".
- If you cancel (or interrupt) the process of changing the default password, the next time you login again, it will still be regarded as the first time login, and you must still login with the default password. For the security of your account, the system will still ask you to change the default password again!

Change Password

Why are you asking for a password change? The possible reasons are as follows:
 1. You are using single sign-on for the first time; 2. You are still using the default password! 3. The password you are currently using does not meet the new password security principles!

New password security principles: **The new password must be at least 6 characters. The password characters are mixed with at least 2 of uppercase(A~Z), lowercase(a~z) and numbers(0~9);**
 Suggestion: **The new password is more than 10 characters. The password should be mixed with uppercase and lowercase letters, numbers and special symbols(!@#*).**

To insure your password accuracy, confirm the new password is required.

New Password:

These changes will be applied to the following applications, when the original system login page to enter that need to use the modified password to login.

Application	Description(The major services authenticated by the same account/password of the left application.)
單一登入(Single Sign On)	

Contact: ssophd@www2.tku.edu.tw 2015-2015 Tamkang University Last Update:2016/01/13

3. The change is complete: Please keep in mind the newly changed password. Generally, the system will schedule an immediate update of the new password to the relevant systems; this page will also be automatically returned to the login page after 10 seconds, so that you can login with the new password, and verify whether the previous password change is completed. Click "Login again" to immediately return to the login page.

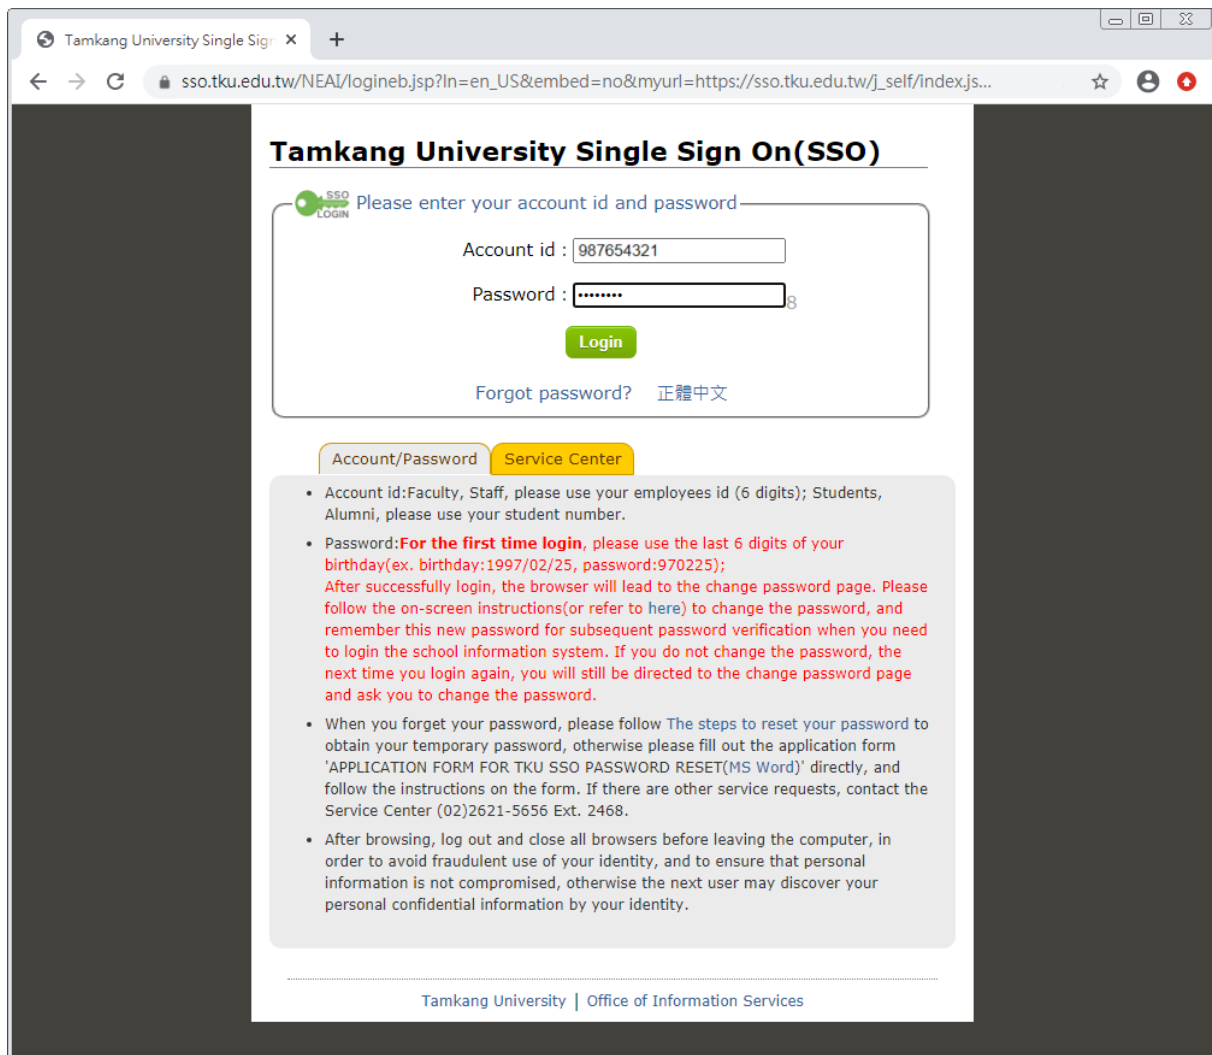

The screenshot shows a web browser window with the following content:

- Browser tab: SSO/Password management
- Address bar: sso.tku.edu.tw/expi/enablepwdAction.do
- Header: Tamkang University logo and text: 單一登入 Single Sign-On
- Section: **Change Password completed**
- Text: **Remember the changed password, otherwise you could not login to our IT services. Ex. Curriculum Online, eMail, Wireless network, TKU i Life, PC classroom,...**
- Text: **This screen will automatically lead after 10 seconds to login page, please sign in with the new password again.**
- Text: Password changes have been sent to the schedule, which will take effect within five minutes.
- Button: Login again
- Footer: Contact: ssochd@www2.tku.edu.tw, 2015-2016 Tamkang University Last Update:2016/05/05, Tel:(02) 2621-5656 Ext. 2468.

4. Login again with the new password: If the password synchronization process is completed and the account and new password are not mistakenly entered, the login will be passed.

If the login fails, please check whether the account or the new password you entered are all correct? If they are correct, you may encounter the peak time of the system. Please wait 5 minutes and try again. If you still cannot login with the new password, please contact the service desk at (02) 2621-5656 ext. 2468.
